Thanks to an entirely new render pass system in Autodesk 3ds Max and 3ds Max Design, you can now create render elements for Autodesk® Smoke® 2013 software, Adobe After Effects, Adobe® Photoshop software, or certain other image compositing applications more efficiently.. ActiveShade Interactive iray Rendering Experience an interactive creative process for finalizing renderings, with new ActiveShade support for the NVIDIA® iray® renderer.. The new Media Sync functionality provides two-way transfer of cameras, lights, null objects, plane objects/solids, footage, footage layering, blend modes, opacity, and effects; with it, you can iterate more effectively and reduce rework to complete projects in less time.. Render Pass System and Photoshop Interoperability Scenes can now be more easily segmented for downstream compositing.. ActiveShade enables you to iterate more effectively by providing an interactive rendering session that constantly updates as changes are made to cameras, lighting, materials, and geometry.
